***DETAILED ACTION***

1. This application is a continuation of U.S Patent Application No. 08/996,379, now U.S Patent No. 5,895,471, filed December 22, 1997.

2. In response to the communication dated 11/17/2004, claims 72-102 are active in this application and in the condition for allowance. The reasons for allowance are stated below.

***Acknowledges***

3. Receipt is acknowledged of the following items from the Applicant.
- The applicant's amendments have been considered and made of record.

***Drawings***

4. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because this application contains informal drawing. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

***Reason for Allowance***

5. The following is an examiner's statement of reason for allowance:

Art Unit: 2161

The interview held on November 16, 2004 was reached with an agreement that Davani (U.S Patent No. 6,208,839) does not render the Applicant's instant invention unpatentable. The Applicant's arguments, filed 08/02/2004, have been fully considered and are persuasive. The rejection of the Office Action mailed on October 6, 2004, has been withdrawn. Therefore, application is in condition for allowance.

The prior art of record (Davani, U.S Patent No. 6,208,839) fails to disclose or suggest the claimed limitations of (in combination with all other features in the claim), wherein the wireless client device does not have to store any data representing any of the bookmarks to request and receive the set of bookmarks, in conjunction with the remaining, salient claim provisions as claimed in claim 1. Similar features are claimed in claims 80, 87, and 95; therefore, claims 80, 87, and 95 are allowable over the prior art of record for the same reasons.

Claims 73-79, 81-86, 88-94, and 96-102 are allowed over the prior art of record, because it is dependent from the allowed base claims.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

*Conclusion*

7. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Gauvin U.S Patent No. 5,991,760 discloses method and apparatus for modifying copies of remotely stored documents using a web browser.

Mullen-Schultz U.S Patent No. 6,393,462 discloses method and apparatus for automatic downloading of urls and internet addresses.

Himmel U.S Patent No. 6,041,360 discloses web browser support for dynamic update of bookmarks.
